Product data sheet

Item number: 251010

Retaining element with restrictor CG-AED

for object-specific adjustment of a defined restrictor discharge

Technical data	
Material retaining element	Stainless steel (1.4301)
Material retaining adapter	PVC
Height of retaining element	approx. 210 mm
Outer diameter	approx. 375 mm
Drain pipe diameter	approx. 110 mm
Accumulation cylinder diameter	approx. 110 mm
Stepless height adjustment	approx. 60 mm
Discharge capacity	approx. 6,2 l/s
Restrictor value	object-specific restrictor holes
Weight	approx. 5,2 kg
Delivery form	1 pc. per cardboard box
Storage	Dry

Suggested tender text:

ClimaGrün retaining element CG-AED for object-specific setting of a defined restrictor discharge with the following properties: Material retaining element stainless steel (1.4301), material retaining adapter PVC, height approx. 210 mm, outer diameter approx. 375 mm, drain pipe diameter approx. 110 mm, accumulation cylinder diameter approx. 110 mm, stepless variable height adjustment approx. 60 mm, drainage capacity approx. 6,2 l/s, object-specific restrictor holes, weight approx. 5,2 kg, supply and install professionally.
